

The phone system that
works **like you do.**

Business communication. **Simplified.**

TalkTel provides the business tools you need at a price that makes sense.

No matter the size of your company, you can now have a corporate-class business phone system without the traditional expense or hassle. TalkTel hosted VoIP provides a simply better solution at typically 40-60 per cent less than what you're paying now.

No more long-distance bill

With TalkTel, you'll get free, unlimited local and long-distance calling throughout Canada and the United States. There are no time restrictions, no limits, and no compromise in quality. With TalkTel, you can finally free yourself from that costly North American long-distance bill.

Unsurpassed quality

Calls with TalkTel are indistinguishable from regular telephone calls. In fact, the quality is often better. We provide multiple high-quality call routes to ensure the clearest audio quality and fewest disconnections. It's quality you can count on.

Powerful, advanced features

TalkTel provides all the latest phone features that Fortune 500 companies rely on in a package tailored to your business. Whether you have one extension or 1,000, you'll love TalkTel's advanced features including custom welcome messages, AutoAttendant, VoiceMail to Email, and more.

Your same phone number

You don't need to sacrifice your current phone numbers to move to TalkTel. We can transfer your existing numbers¹, set up new toll-free numbers, and tie in new local numbers from nearly any city in the world. With TalkTel, your phone number—and business—can be as local or global as you want.

Just \$29.^{99*} or less per extension, per month.
No hidden fees. No surprises.

Advanced cloud management

TalkTel's service is managed in the cloud², so there's no equipment to buy and nothing to install on site. It's easy to move and scale your system; perfect for mobile offices, construction sites and growing businesses. Just plug a TalkTel phone into an Internet connection and you're ready to go. You can manage your phone system online yourself, or simply leave it to us. Cloud management is the future of business, and TalkTel is leading the way.

Detailed call reporting

TalkTel helps you manage your business with advanced call reports. Track all the calls made by individual employees last month, or see which customers are calling most often. We include advanced call reporting features to help you know what's happening with your business.

Local service and support

When you call TalkTel, you're calling a company based right here in the Okanagan Valley. Our local team has the resources and experience to ensure a quality system and great support before and after deployment.

As unique as your business

TalkTel takes pride in customizing systems to meet the unique needs of your business. For example, we can tie in to your PA system, set up a call centre, allow hotel guest phone charges to be posted to bills and much more. And the best part? All custom features and services are included at no additional cost. You'll never see an added fee.³

One revolutionary price

Go ahead: compare TalkTel to what you're paying now. Most customers can expect to see savings of 40-60 per cent. Because phones⁴, installation and customization are included, you'll see the benefits of those savings from day one. And you can forget committing for years on end: unlike other providers, TalkTel will never lock you in to a long-term contract.

The **TalkTel Dashboard** (above) lets you manage and monitor your phone system from the cloud. Simply connect through any web browser or smart phone. Of course, you can always leave it to us—full management and support is included with every TalkTel account.

Is TalkTel right for you?

Call us at 250.870.9021.

* With annual prepayment. Month-to-month costs are higher. Volume discount available. 1. A transfer fee may apply. 2. TalkTel is not an Internet Service Provider (ISP). An ISP connection is required for TalkTel service. 3. Though rare, additional costs may apply for custom equipment required to deliver certain custom features and services. 4. TalkTel retains ownership of phone equipment. Usage of equipment is included in the annual rate.
